

>Structural 6000 series aluminum or brass attachment clamp

- Aluminum roof clamps are compatible with most common metal roofing materials excluding copper
- S-5-B is a brass roof clamp compatible with copper paneling.

>All hardware is 300 series stainless steel (excluding S-5-K700, S-5-K Grip Snow, S-5-T2)

>Commercial grade standing seam roof mount

>Round-pointed set screws (excluding S-5-K700, S-5-K Grip Snow, S-5-T2)

- Will not penetrate through roof seams or panels
 - +Will not penetrate the weathering membrane of the roof
 - +Will not damage the protective Galvalume coatings of steel panels
- Will not cause scoring which can lead to roof material fracture or premature corrosion, including rust
- Only minor dimpling of panel seams
- Will not void roof warranty

>Does not used sealers or adhesives

>Zero penetration technology

>Has been tested for load-to-failure results on most major brands and profiles of standing seam roofing

>Holding strength is unmatched in the industry

>Used in heavy-duty applications
